

*Serving the Local Community*

# MABATI TRUST news

Edition: Jan –June 2015  
No. 20151

# Editor's Note

MRM – EIB Trust commitment is to contribute to poverty alleviation and socio-economic development by imparting employable skills and ensuring the delivery of quality health care that is affordable and responsive to improve the health status of the people of Mariakani, Kilifi & Kwale Counties. The Trust is doing this through its two community based projects namely, Mabati Technical Training Institute & Mabati Medical Centre.

The strategic objective of the Mabati Medical Centre is aimed at ensuring that people of the area irrespective of gender, age, residence or ability to pay will have equitable access to affordable, quality, essential and personalized health services; offered by competent health professionals.

The outcomes desired are increased life expectancy, reduced infant mortality rate, reduced child mortality rate, reduced maternal mortality ratio, prevention of HIV/AIDS/STI's & tuberculosis & sustainable population growth.

Our Trustees have endeavored to improve these services by setting up a new Diagnostic Centre consisting of Laboratory, Digital X Ray & Ultrasound services. We have also commenced 24hrs services, thus, putting in place an effective and efficient health system for the benefit of the community.

## WE DID IT!!! Mabati Technical students excel in NITA exams

Our students doing the National Industrial Training Authority (NITA) certified technical courses performed well as we got a 99% pass result.

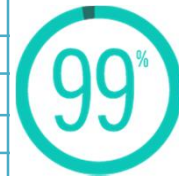

This demonstrates the hard work of both the trainers and the students.

We are indeed imparting employable skills to the Youth of Mariakani and the Coast Region.

**Congratulations!!!**

Mabati Technical Training Institute NITA 2014 Exam Results						
COURSE	Grade III	Grade II	Grade I	Exam Body	Pass	Fail

EPZ machine Operator short course was introduced at Mabati Technical Training Institute this year. Around 80 youth have managed to be gainfully employed in the EPZ companies in Mombasa.

## Mabati Medical Centre Diagnostic Laboratory

Mabati Diagnostic Laboratory started its operations in May 2015. Our service is marked not only by excellence in quality but also by quick turn-around time, friendly relations and affordable costs which enables us to reach most of the local community.

The laboratory offers routine testing within the scope of Immunology, Hematology, Serology, Virology, Parasitology, Microbiology & Biochemistry.

The laboratory has in place internal quality control programs which are run on a daily basis to ensure that the laboratory reports released are reliable. We are also partnering with Pathcare Labs in Mombasa by participating in various proficiency testing. In addition, we are working to register with external quality monitoring organizations like HUQAS & QASI among others.

As part of meeting accreditation criteria, Mabati Medical Centre management is fully committed to offering staff training programs to ensure competency & compliance with an aim of achieving ISO 15189 standards.

We can now say that we have raised ourselves to offer even higher quality health care services to the local community.
